ILLNESSES

We would prefer sick children to be kept at home for the duration of the ailment to avoid and prevent transfer of infection at school.

PERSONNEL

The ratio in this unit is 4 babies to 1 caregiver.

In the Toddler classes the ratio is 5 toddlers per caregiver. Staff in our schools is well trained, experienced individuals.

Our classes are small for infection control, for good assessments/ monitoring & milestones.

Specific tertiary education in preprimary education as well as in related field such as educational psychology, nursing, social work or related subjects is deemed appropriate for our teaching staff. In-service training for caregivers is done throughout the year. They support the teacher in class with all duties related to caring and stimulation. All staff members are expected to regularly attend training seminars and workshops.

An administrative lady involved in all duties related to the smooth running of the school is an essential staff component. Domestic staff for the general upkeep of the school as well as kitchen and cleaning services is important in our schools.

Any enquiries are welcome. Please call us at your convenience.

Infanti-greetings!
